Frances McAllister founded The Arboretum in 1981. The Arb is made up of a collection of gardens and natural areas, historic buildings and greenhouses, all nestled into the largest unbroken stand of Ponderosa Pine in North America. We provide a home to over 700 species of plants including many Native species along side traditional garden varieties adapted to our unique high altitude climate.

Our mission is to increase the understanding, appreciation, and conservation of plants and plant communities native to the Colorado Plateau.

take a tour, walk a trail, pack a picnic, enjoy local art, hunt gnomes, do some birding, walk your dog, meet the plants of the Colorado Plateau, learn about the history of the local area, buy locally grown plants, check out the Botanic Blacksmiths garden art display, attend a class, catch a concert, listen to a lecture, watch the clouds, scamper with the squirrels, smell the flowers and sniff the delicious ponderosa bark, play a yard game, do an outdoorsy thing...
We are a non-profit organization. We depend on support from the community to keep your garden ready for you!

Annual Memberships include free regular entry, a monthly newsletter, and discounts on special events, camps, classes, plants, gifts, & more!
